

Haig Housing Annual Visits: Our Policy

The Trust has a policy of carrying out annual visits to all of its tenants for the purpose of maintaining direct communication and a first class knowledge of tenants and their families.

Such visits enable the Trust to identify the health and well-being of its Tenants and any issues affecting their continued peaceful enjoyment of the property.

The policy has been formulated in direct response to an overwhelming request from tenants for face-to-face visits and as an opportunity for tenants to access services through a broad range of channels.

Any visits must comply with the Trust's Customer Service Standards and compliment the Trust's Tenant Involvement Strategy.

Any Agents, as part of their agreement with Haig Housing, are required to satisfy the annual visit procedures and the Trust's code of conduct which outlines the behavioural requirements expected when working with Haig Tenants.
