

# HAIG HOUSING PROPERTY LOCATIONS

## London & Surrounding Areas

You can use this page to see locations, types and bedroom numbers of our properties. To increase your chances of being housed, do not choose an area which does not have appropriately sized properties for your needs – for example, single applicants should not choose an area where there are only 3-bed houses; large families should not choose an area with 2-bed flats.

**KEY: B = Bungalow F = Flat M = Maisonette H = House (followed by number of bedrooms)**

eg: Birmingham 12(F2) 20(H2) 28(H3) = 12 (2-bed flats), 20 (2-bed houses), 28 (3-bed houses)
