

switchee

Your new smart thermostat

Switchee is a smart, touch-screen, connected thermostat for your heating and hot water that doesn't require WiFi.

Your Switchee will help you optimise energy usage, lower bills and reduce energy consumption - making it good for you and the environment.

£0

It won't cost you a penny to have your Switchee installed

17%

By setting a schedule you can save up to 17% on your energy bills

Easy to control via touch screen or smartphone app

Respond to simple messages and updates from your housing provider via the screen

Helps your housing provider identify risk of mould developing in your home

"I very rarely have to do anything at all. In winter I just adjust the thermostat schedule manually. I found it easy. It's very responsive."

Mr Robinson, resident

"When you are old you're not very up with technology, but it is very easy to use."

Mrs Green, resident
